# ANODIZING & LIBATIONS

AT LUKE ENGINEERING - RITTMAN

LUKE ENGINEERING  
& ANODIZING CO.

**5pm - 6pm** Tour of Luke Engineering & Anodizing Co

**6:15pm - 8:30pm** Networking & Happy Hour at Moose Lodge -- right next door!

Join us for a tour of the Luke Engineering - Rittman facility. Built in 1993, this 12,000 square foot facility houses 3 process tanks. Two of the tanks are used for Type II standard sulfuric anodizing. The third tank is used for Hardcoat anodize. During this tour you will see Luke's one-of-a-kind, home built automated control system. This is the computer system that sets Luke Engineering apart from the competition. This system offers consistent, repeatable, and predictable quality every time.

**THURSDAY**

May 9, 2024

**5pm - 8:30pm**

**\$25**  
Members

**\$35**  
Non-Members

*Tickets includes tour,  
apps & 2 drink tickets*
