**\$60**  
 Non-Members

Keystone Technology Consultants will lead a discussion that focuses on the **AI policy** for your organization and the necessary steps to **protect your team, data, and intellectual property** from an AI product. Additionally, we will explore practical ways to begin integrating AI into your organization to **save time** and **enhance the professionalism** of your team.

### ABOUT KEYSTONE

Keystone Technology Consultants has proudly served Northeast Ohio for over two decades as the leading IT managed service provider. The name "Keystone" is symbolic of the critical stone that holds an arch together, representing our commitment to building strong relationships and delivering safe, secure, and reliable IT solutions for our clients, allowing them to concentrate on their core business operations.
